

THE GLEICHEN CALL

VOLUME XXXIV NO. 31

GLEICHEN, ALBERTA, WEDNESDAY OCTOBER 15, 1941

SUBSCRIPTION \$2.00 PER YEAR

MANY BUSINESSES COME UNDER NEW DOMINION LICENCE

Departmental and country general stores large hotels and soda stores, manufacturers and sub-contractors, every person and firm in Canada manufacturing or dealing in food, feeds, live stock, poultry, yarn, clothing or footwear must secure a licence from the Wartime Prices and Trade Board by December 1 or lose their licence.

After that time, no unlicensed person or firm may buy for resale, transfer, or sell any of those commodities.

More than 200,000 businesses are affected by this vast plan to set up the machinery necessary for policing prices and for securing speedy reports on available supplies in the event of wartime shortages. In the Gleichens area, it is expected that over 20 grocers and others will soon be displaying on the door or window of their place business the distinctive gold and blue certificate which shows the public that they have obtained their wartime licence.

There is no license fee. Licence application forms will be distributed through the mail late this month and any businessman who is subject to the licensing order and does not receive an application form should apply for one at his post office. At the post office copies of the complete licensing order will be available. To facilitate further the introduction of the licensing plan, the Wartime Prices and Trade Board is appointing nine regional licensing directors for each province. Individuals or firms who, after consulting the text of the licensing order, are still uncertain on all points, should communicate directly with their Regional Licensing Director.

Licence application forms are easy to complete. At this time are spaces for the filling in of the name, address and official position of the applicant. Because these particulars should come in class of business and commodity names on the licensing order. All the applicant must do is place a check mark beside the type of business and the kind or kinds of commodities he buys for resale handles or sells.

Applications for persons conducting more than one place of business must be accompanied by a list showing the address of each establishment. If these places of business carry different legal names separate applications must be made for each under its own name.

"Licence cards and window transfers will be supplied to all whose applications are received and accepted," said Mr. Murphy, who will be in charge of this transfer on the window of an establishment will not only serve as indication that the firm is licensed but will also show the public that the licensee is co-operating with the government in its effort to avoid unnecessary increases in the cost of living."

The first licence identification card will be light blue in color and will expire on March 31 1942. It will carry the license number allotted to the applicant in the upper right hand corner. At the left is a space for the signature of the holder. This licence identification card will be mailed to each licensee along with his window certificate.

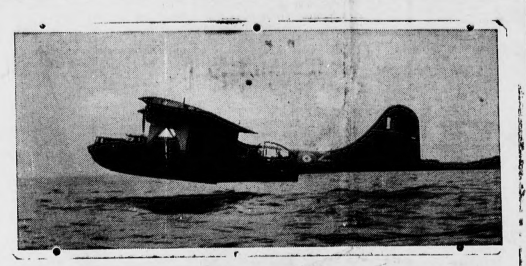

Each licensee will receive a number which he will retain from year to year, provided the name of his firm is not changed or his licence cancelled by the Board. After December 1, when any of the commodities named in the Licensing Order are bought for resale, both the seller's and buyer's licence numbers must be marked on the sales slip, invoice, or other document which records the sale.

Licenses and window transfers will be renewed every six months. It will not, however be necessary for the licensee holder to apply for a new licence because he will automatically receive one by mail at the end of six months. The present period expires on the last day of March and September.

Under the Board's Licensing Order the following classes of persons firms and corporations are required to secure a licence by December 1, 1941:

"Every manufacturer, processor, blender, packer, importer, exporter, wholesaler, jobber, retailer, manufacturer's agent, broker, commission merchant, auctioneer, warehouse operator, cold storage plant operator, co-operative buying organization, co-operative marketing or selling co."

BRITISH FLYING BOAT—That sighted and shadowed German battleship Bismarck. The American-built R. A. F. Catalina flying boat that first sighted the Bismarck near 35,000 tons pride of Germany's Navy, is seen as it takes off for another Atlantic patrol.

News Items of Local Interest

R. C. Clifford has received word that his son Art who has been with the R.C.A.P. in England has been transferred to the Middle East.

A very large crowd attended the dance at Meadowbrook Friday night. All report having had a great time.

Practically every hunter in town spent Thanksgiving out hunting and most of them were successful in getting an assortment of ducks, geese and chicken.

The auction sale of Mrs. Wright's furniture held Saturday afternoon by Auctioneer Allen proved to be very successful. Mrs. Wright left Tuesday for Edmonton where she will be in future residence.

Mr. and Mrs. A. R. Yates spent the weekend in Edmonton.

Word has been received from Lieutenant M. W. Murray from some where in England that he is having a good time and he is delighted with the country and the people. He is attached to a light anti-aircraft battery. On his first leave he visited his home in Edinburgh, Scotland. He intended to visit the Highlands to see the "wee house among the heather and to partake of the haggis and herring and the braise and the whiskey" about which he had heard his father talk so much, but was unable to do this on account of train service to the north. Instead he visited a great aunt at Shrewsbury, Shropshire, England and spent two days holidaying on the banks of the glorious River Severn. On his return to London an aunt there showed him around the city. Apparently the old historic places are still there in spite of the German blitz. Because he saw the Houses of Parliament, Trafalgar Square, 10 Downing Street, Piccadilly Circus etc. He says he gets lots of good food and that they are well looked after. The trip across the Atlantic was grand and he will never forget his first glimpse of the shores of Great Britain. He sent his best regards to the Brown Brothers, Old Sir and all the rest.

ST. ANDREW'S CHURCH

Sunday, October 19th.
Morning prayer 11:15 a.m.
Rev. L. T. Pearson, B.A. (Incumbent).

OBITUARY

BERA HAMILTON DINGMAN

E. H. Dingman who has been a resident of Gleichens for the past 13 years, died after an illness of a few days last week in the Basanto hospital. Mr. Dingman was born at Drayton, Ont., and after spending most of his life in that province moved to Gleichens in 1927 with his wife and family. Previous to coming west he followed the occupation of a steam engineer. A daughter who was very well known here and moved east predeceased him sometime ago. His wife died after an illness of a few days last week in the Basanto hospital. He is survived by one daughter, Ruby, of Gleichens. The funeral, which was private, took place Friday afternoon at 2 o'clock with Rev. Rowe of United Church officiating, after which interment was made in the family plot in the local cemetery.

Miss M. Wright, R.N. who has been on the staff of the Blackfoot Indian Hospital for the past six years left Tuesday for a short stay in Calgary prior to her departure for South Africa. Miss Wright has recently joined the Canadian Nursing Corps who are sending some 50 nurses to the Union of South Africa.

Auctioneer C. M. Allen of Quesnaw has rented the Mile Mumps farm and will shortly hold an auction sale of the household effects and farm equipment of Mrs. N. Scully.

A Halloweened Red Cross dance, sponsored by the young girls of Gleichens, will be held in the Community Hall on Friday evening October 18th. Modern music will be supplied by Torry's Orchestra. The committee in charge of the dance are: Gertrude Desjardins, Elizabeth Gooderham, Elaine Nelson, Bernice Mearns, Vera Matheson and Irene Young.

Bob Taylor and wife of Canopus spent the weekend in town visiting his parents, Mr. and Mrs. E. W. Taylor.

L. H. Phillips and his daughter of Okotoks spent Thanksgiving Day in the guests of Mr. and Mrs. E. W. Taylor.

THE WORLD OF WHEAT

During the summer of 1940 the Crop Testing Plan analyzed just over 13,000 growing samples of wheat, each sample representing a field of about 100 acres. Approximately 5,000 of these samples were found to classify as C's or mixtures which meant that the farmers growing these fields of mixtures or of undesirable varieties were losing money because of low yield and poor grade.

The elevator agents then endeavored to persuade those farmers to change their seed and so stop losing money.

From reports of the distribution of seed actually made, it is found that the elevator agents succeeded in persuading just over 41 percent of those farmers who had C's and mixtures to purchase some registered or certified seed. Those farmers, therefore, who purchased better seed have improved their crops and so will make more money for their efforts. In addition they have helped to improve the general quality of Canadian wheat offered on world markets.

The elevator agents have been going on for 10 years and each year has shown about the same percentage of improvement. It is interesting to note that a very few of the farmers who were growing poor quality crops were aware of it until the cereals or plants breders pointed out the mixtures and undesirable varieties which their crops contained.

THE RUM ISSUE

BY FRED JONES
This Column Given to News of the Gleichens Branch of the Canadian Legion

Stand To!
I hope the weather on the prairie is fine. Outside of the rain I mean.

doned before we are enjoying warm days and fair cool nights but no G.I.s.

Trail has a ladies softball team second to none in the Kootenays and they took the sugar daddies of the Vets Guard into camp the first game. With generous application of liniment by our first aid men Doc Simm and a few doses of hormones or some special vitamin they were able to win the second. The third game will be played Sunday and we will see whether they can out hit and out run their younger and fairer opponents. Whether they can overcome the assortment of curves passed by the girls seems to be a question as to do the curves.

A play was put on recently by the Nelson amateur players in the Trail auditorium to which the members of I.R.A. Coy. were invited. The boys enjoyed the performance very much.

I recently took in a boudle game between the Richmond Farmers, Pacific Coast champions and Trail Golden Bears, central champions. This was the first of a best out of three series and was won by the Farmers by a small margin. The play on the floor was about even and the winners owe their triumph to the stellar performance of their goal keeper.

He has an off night or the Trail goalie would more class it looks like Richmond.

One of our officers, Lieut. Founds often mentions Gleichens and some of his pleasant experiences there. It will be remembered by many that he belonged to the staff of the Canadian Bank of Commerce and I believe he was instrumental in the organization of the first Boy Scout Troop.

The result of the aluminum drive put on by Trail and district resulted in a huge pile of household utensils that have had their day as such but only wait to be turned into parts for the war machine. This metal has been collected for sometime but now we understand that it cannot be shipped out as the freight charges are so high that no advantage would result. If this aluminum is as badly needed as they say surely there is some way to get it to the place where it can be used. If the army and air force are to be held up for the sake of the railroads getting its full payment then it is time to find out whose war this is. It is likely that some way will be found to get the railway to handle it before the close of the war or else the airman and soldiers had better start saying something.

An agitation is now going on in Britain to modify blackout restrictions. The mark has been born since in Moscow. Why cities should remain in total darkness when enemy planes are not even approaching the Lord only knows and he won't tell but the "dumb" Russians seem to have thought it up and perhaps it is even a good idea.

It won't be long now. Hockey, the best of all games, will soon be in full swing across the continent and for those who can't get to see the big games they can pull a chair up near the radio and hear "the life and the scores" from the popular hockey announcer Foster Hewitt.

Good luck to the branch and the rest.
Lights out!

We Stand On Guard

With the intensification of warfare on the European continent and over Britain, warnings appearing frequently in the daily press, that Hitler is pursuing his policy of conquest on this continent by his underground methods of subversive propaganda designed to "soften up" the people in the hope of rendering them indifferent and apathetic and later openly militant, if and when the time comes for overt acts, cannot be disregarded. That this insidious and dangerous policy of paving the way for Nazi armed forces has proved successful everywhere in Europe except in Great Britain and Greece has been amply demonstrated that the people of Canada and the United States cannot afford to be blind to its possibilities here, unless they are continually on the alert to detect the evil wherever ripples in underground channels indicate its presence, to reveal its existence wherever and whenever it is detected and to "smoke out the Nazis" in their lairs.

This does not mean that everyone whose native tongue is Continental European is to be regarded as suspect. On the contrary, thousands of them, the great majority are as loyal to the British cause as is the entire Anglo-Saxon world, but there is a small minority among them who are ready and willing to serve the Nazi doctrine there are a few Quislings even among the Anglo-Saxons. For our own protection, it is the duty of all of us, to bring to the attention of the proper authorities, the few who are indulging in nefarious practices designed to undermine our war effort, whether it be by word or deed. Constituted authority can be relied upon to take whatever steps may be necessary to render their machinations harmless.

A Great Loyalty Body

As already stated, the vast body of Canadians of the British origin in Western Canada are loyal to the cause of democracy to the core and disavow Nazism, Fascism, Communism and all other doctrines which constitute a threat to the continued existence of liberty and freedom of the individual.

And why wouldn't they be? For did they not come to this country because they espoused the doctrines of freedom and liberty, because they wanted to be assured of their personal right to think and speak and their worship as they chose and to take advantage of all the opportunities and privileges afforded by a democratic regime?

If proof were needed as to where the great rank and file of these new Canadians stand on the great issues which are now being fought out, it is to be found in their own language newspapers published in this country and enjoying wide circulation among them. A few extracts from some of them indicate clearly what the great majority think about the issues of the war and the example which is being set by their leaders.

For example, the "Nya Svenska Pressen" (The Swedish Press), Vancouver says:

"We believe that Canada has done well. But the sooner that we realize that we must do better, and that it is our struggle as much as that of the people of Great Britain, the better it will be for our cause. We also believe that the Swedish people in Canada are to be trusted as any national group. Hundreds of our men and boys have joined the service and we believe our people generally are giving their fullest support in other ways."

Another from "Narodnina Gazeta" (People's Gazette), Ukrainian weekly published in Winnipeg:

"Farmers and workers cannot remain passive in the struggle. Working people are most vitally interested because they are the backbone of the system they have a chance to achieve a better life and greater prosperity, to struggle by legal means for their rights and to work toward creation of a new society of toilers, without exploitation and force. Workers and farmers of Canada must stand, together with the British working classes firmly and unwaveringly on the defensive positions of our country. And this must be manifested by deeds and not by words."

The Croatian Voice "Hrvatski Glas", published in Winnipeg makes the following appeal to its people:

"We, Canadian Croats, Serbs and Slovenes must prove to our new homeland in the current campaign that we fully appreciate its hospitality and the freedom which we have found here. The salvation of the whole world depends on a victory of Great Britain and of democracy in general."

For A Greater Faith

Nor is this sentiment confined to people from countries who might be expected to be Allies if they had had the chance, as the following extract from an editorial in "Der Norwiesener", German language weekly published in Winnipeg, demonstrates:

"First and foremost, let all of us who have taken upon ourselves the privileges and responsibilities of Canadian citizenship fully realize that whatever life of hardship and whatever we may have with other lands, that Canada must claim our first allegiance. This will make it more difficult for undesirable elements to establish themselves among us. It will also help else, namely a greater faith in Canada and a much stronger unity of ideals to bring about what the people in this country need more than anything and purpose in making it a still greater and honored nation within the folds of the British Empire. . . Let us be ready to put into deeds and action the words of the National Anthem of our Dominion: 'O Canada, we stand on guard for thee'."

Life Annuity For Dog

Miss, a Doberman Pinscher, is assured a comfortable existence for the rest of his life. A life annuity amounting to \$240 a year for the dog's care under the will of his late master, Dr. E. B. Drucks, of Wabash, Ind.

Calls For Laundry

King Harker, of Norway drives a Buckingham Palace, London, in a black limousine once a week to collect his laundry. For reasons of state, the driver has been decided that neither his letters nor his laundry shall be delivered at his residence.

There are 20,000 kinds of butterflies in South America; only 700 kinds in North America.

The cultivation of wheat dates back as far as the Stone Age, and its origin is unknown. 2405

Good Work Being Done By Organized Aidling Excluded Men
More than 7,000 members of the Veterans' Guard of Canada on duty at interment camps are enjoying entertainment, recreation, and many types of personal comforts provided free by the Canadian Legion.

In most cases isolated from urban centres and subjected to all kinds of bad weather, these old soldiers of 1914-18 who have volunteered to guard the camp housing prisoners of war look to their comrades for the facilities that will help offset discomfort and monotony.

The Legion, which also carries on auxiliary services work on behalf of the navy, army and air force at home and in the Old Country, has supplied hundreds of thousands of sheets of free newspaper and envelopes, books, magazines, sports equipment and, with the assistance of Legion branches, radios and pianos. These comforts are available at all times in recreation rooms.

Legion officers have also rendered assistance to members of the Guard in adjusting private and domestic problems which the men could not attend to. In many instances, wives and families have been spared emotion and financial distress through the Legion's help.

This type of work is being carried out by all of Canada's auxiliary organizations, and financial assistance to the men. The money necessary to continue such efforts is provided by the Legion's own funds.

The Legion as well as the I.O.B.E. in the four western provinces, Knights of Columbus, Salvation Army, Y.C.A. and the Y.W.C.A., are making a joint nationwide appeal for \$5,000,000 to ensure continued efforts in Canada and overseas. The appeal is under the auspices of the Governor-General and the Princess Alice and will be the service organizations for the men in uniform to be held in 1941.

Youth Training

Average Graduation Of About 4,000 Each Month

Confidence the objective of 50,000 graduates of vocational schools and 50,000 graduates of plant schools for jobs in war industry this year will be attained was expressed in the House of Commons by Labor Minister McLarty.

He said the war emergency training program was a joint pre-war industrial-domination undertaking based on the framework of the pre-war youth training plan.

McLarty said present enrolment in the vocational schools indicated an average graduation of about 4,000 each month. The output would be expanded as need arose and it was expected it would be larger during the summer months when high school graduates are on leave.

It was difficult to get figures for the plant schools, said the minister, because government contractors did not want to make it public that they were the responsibility of the industries concerned with trained men to fill their own requirements.

Air Training Plan

U.S. Has Furnished Many Trained Aviators For Instruction

In development of air training, Canada was fortunate in her proximity to the United States which had furnished from 200 to 400 trained aviators for instruction and ferrying tanks, the air minister, Hon. C. G. Power said in the House of Commons.

This had been an important factor in the speedy development of training facilities.

In addition to supplying trained men for Canada's air force the United States had produced from seven to 10 per cent of students in the British Commonwealth Air Training Plan. Canadian and this listing included the American students as well-made up 90 per cent of the pupils, the other 10 per cent coming from the United Kingdom, Australia and New Zealand.

Total Canadian air force personnel of all kinds in Canada at present was 3,400 officers and 42,732 airmen, the equivalent, Mr. Power said, of three infantry divisions.

Capture Lost Seal

Long-lost Oscar, a 170-pound seal, was captured after almost nine years' freedom in the warm waters of the Gulf Stream. Oscar hopped aboard a small fishing boat near Ragged Key, 12 miles south of Miami, Florida, enjoyed a mass of fish and was lauded by his hosts. At the aquarium, the seal was identified as Capt. Newton Knowles, who said Oscar escaped soon after being brought from Labrador nine years ago.

Powerful Tanks

Holling Off The Assembly Line In Britain

Tanks like the those that drove the Italians from Eastern Libya are rolling off an assembly line in Britain. They are so fast, powerful and ugly that a demonstration of what they can do is terrifying.

They are so heavily armored that only a heavy calibre shell can stop them. It is not permitted to give specifications but it can be said that they are faster than most 1930 model American automobiles. (Medium-priced 1930 automobiles could hit 75 miles an hour).

Newspapermen stood in a reviewing stand and watched a demonstration. There was no firing, but the sight of that block of steel bearing down on us with the speed of a train, its tractors kicking up mud, motor roaring and cannon and machine-guns pointed at our heads, made us step back, even though we knew we were safe.

Directly in front of the stand the demonstrating tank dug its tread into the cinders, threw up a cloud of dust and came to a halt within a distance no greater than the tank's length.

In these tanks the power comes from Liberty type motors, the same type used in airplanes in the world war.

SELECTED RECIPES

EMERGENCY FRUIT SALAD

1 package Creamed Jell-O
1 pint hot water
1 orange, sections free from membrane
1 banana, sliced
Dice the Jell-O in hot water. Pour about 1/2 of Jell-O into mold. Chill until firm. Chill remaining Jell-O until slightly thickened. Fold in orange sections and banana. Turn out to mold over fruit Jell-O and chill until firm. Unmold. Serve on crisp lettuce and garnish with mayonnaise for salad, or serve plain or with whipped cream for dessert. Serves 10.

PEANUT BUTTER MACAROONS

2 egg whites
1/4 cup sugar
1/2 teaspoon almond extract
1 cup peanut butter
2 cups Kellogg's rice krispies
Beat egg whites until stiff. Add sugar. Fold in sugar, flavoring and peanut butter. Add rice krispies, stirring only enough to combine. Drop from teaspoon onto well greased baking sheet. Bake in oven (375 degrees F.) about 20 minutes. Let dry. Bake macaroons (2 1/2 inches in diameter).

Contracts Are Ugly

Wealthy Chinese Spend Millions On Balls While Poor Starve

China's policy is depicting in ugly colors the sharp contrast between rich and poor in Shanghai. One of the stories concerns the festivities of Christmas eve. All Chinese ball-rooms were crowded with Chinese pleasure seekers and the incomes of the ballrooms on that night were said to be well over \$1,000,000. On the same night, 82 bodies were picked up from streets by the Shanghai Public Benevolent Committee. Among the bodies picked up on Christmas eve, only 23 were those of adults. On Christmas Day, 32 dead adults and 17 dead children were collected.

Cleaning Up The Flower Garden

Some Timely Suggestions For Preparing The Garden This Spring

As soon as the snow has melted and the ground is beginning to dry, work can start in the garden. If the tops of the perennials were not cut off in fall they should now be removed and any branches or dead trash that has collected on the beds should be carefully raked off. If a much of manure was used in fall, the fine part of the material can be dug in to add humus to the soil. At this time an application of a commercial fertilizer with the formula 4-8-10 can be scattered on the surface and dug in, advises Miss Isabella Preston, Division of Horticulture, Central Experimental Farm, Ottawa.

Any broken or damaged branches should be removed from shrubs and trees, being careful to make a clean cut and not to leave ugly stubs on the trees. Late blooming shrubs can be pruned at this time.

In the rose garden it is a mistake to remove the protecting material all at once. If boards or straw were laid over the mulch they should be removed first and a fork thrust into the straw or leaves in several places to see if any air can get in. In a week or so if the weather is suitable the top layer of straw can be removed and the remainder taken off gradually. If the nights are very cold and the days dry and sunny the top layer of straw should be removed the lower part of the rose bush until the soil is beginning to warm up and the roots are waking up from the winter sleep. The dry winds and hot sun frequently damage the stems by drying before the roots are sufficiently active to supply the moisture necessary to keep them in good condition.

Famous Phrase

Prime Minister Churchill's Statement Given New Variation

Prime Minister Churchill's famous phrase about the civilian population and the Royal Air Force—"Never have so many owed so much to so few"—is being extensively paraphrased, Columbia Broadcasting system reported from London.

One example that has found its way into print, CBS reported, is the form Hitler's tribute would take to the Italian forces.

"Never have so many done so little as this long time."

Another variation cited was in connection with the Balkan situation:

"Never have there been so many who knew so little about so much."

Unanimous Response

When Winston Churchill became Britain's Prime Minister last May, the Commons in a confidence vote supported him 381 to 0. In a recent week he sought, for the first time, then, another vote of confidence.

He got it. There was a unanimous about of "Yes."

Want Balkan Crops

One reason why Germany and Italy desire to win their Balkan victories without fighting is that they hope to secure the crops of Yugoslavia, Bulgaria and Rumania, which might be produced out of a first-frost window is said to freeze before it reaches the ground.

Following the example of cattle raisers, California apiarists send their swarms of bees to the high Sierra region for the summer months.

ENERGY
For VIGOROUS YOUTH

Bee Hive
Golden Syrup

Britain's Food Needs

Must Be Met In Great Part By Her Farmers

Robert Hudson, Minister of Agriculture, said that "unless British farmers pull their weight we might next winter hear a child say 'I'm hungry'." The British Broadcasting Corporation reported.

He Hudson, in announcing that no farmers will be called up for military service until after the harvest, said: "We must, by hook or by crook, produce every ounce of food possible although less and less imported seedlings are available."

"In view of the importance of food production, the Minister of Labor and National Service, Ernest Bevin, had agreed that farmers should not be called up."

"Agriculture is the very front line of our defence," the Minister said. "As the war against the demands on our shipping must become more and more severe."

"The soil has become the nation's might and it must be made to produce food for man and beast."

Words of Inspiration

A Thought A Day For A People Who Are At War

"I am not saying that the world does not need a new or a changed order. But it does not want an order made by a people who split on religion and encourage treachery in the home, and commit torture, and bring about unnecessary death — a new order based on the oldest fallacies and cruelties known to man." — Sir Gerald Campbell, Minister of the British Embassy at Washington.

Russia claims that the coldest place in the world is Olenok, in Siberia, where water thrown from a bucket out of a first-frost window is said to freeze before it reaches the ground.

CANADA YEAR BOOK IS NOW READY FOR THE PUBLIC

The publication of the 1941 edition of the Canada Year Book published by authorization of the Hon. James A. MacKinnon Minister of Trade and Commerce is announced by the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thoroughly up-to-date account of the natural resources of the Dominion and their development, the history of the country, its institutions, its demography, the different branches of production, trade, transportation, finance, education, etc.—in brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

The 1941 Canada Year Book ex-

TENDERS WANTED

Tenders will be received at the office of the Secretary Treasurer of the Bow Valley School Division, at Basano, Alberta, up to the hour of noon on Monday October 20th, 1941, for moving the Wayside School, situated 6 miles west and one and a half miles north of Queenstown, to the site of the Towers School, on the highway east of Gleng and for constructing a concrete basement on the site (no excavating).

Tenders should be marked "Wayside".

G. E. SMITH, Sec. Treas., Basano, Alberta.

tends to over 1000 pages, dealing with all phases of the national life and more especially with those susceptible of statistical measurement. A statistical summary of the progress of Canada is included in the introductory matter. This gives a picture in figures of the remarkable progress that the country has made since the first census of the Dominion was taken in 1871, seventy years ago.

A feature in the present edition is the introduction of tables showing the application of gasoline tax and of succession duties from the date of their inception. Since the Dominion Government has now entered these fields the tables provide a background for the latest study of these sources of revenue on a national basis.

In the present edition a complete list of articles and of historical or descriptive text that has been subject to wide change and is therefore not repeated is given following the Table of Contents. This list links the 1941 Year Book with its predecessors and indicates the extent to which the Year Book must now be regarded as a series of publications rather than a single volume.

Persons requiring the Year Book may obtain it from the King's Printer Ottawa, as long as the supply lasts, at the price of \$1.50 per copy; this covers merely the cost of paper, printing and binding. By a special concession, limited number of paperback copies have been set aside for ministers of religion, bona fide students and school teachers who may obtain such copies at the nominal price of 50 cents each but application for these special copies should be directed to the Dominion Statistics, Ottawa.

RED-CROSS NOTES

(Mrs. S. E. Dufos, Convener)

The arranging of the Christmas parcels for the Gleichen boys overseas is taking up the attention of the war workers this month. Next week these boxes will be packed each containing a fruit cake, shortbread, home made candy and other articles of home cooking to cheer the boys at Christmas time.

The Gleichen Branch of Red Cross Society are pleased to acknowledge the sum of \$24.40 from Menziesbrook U.P.W.—proceeds from the dance Friday night.

(Continued from page one)

MANY BUSINESSES

organization, producer who buys the products of agriculture for re-sale, custom tailor, shoe-repair shop operator, public eating place operator, or other dealer, who buys, sells, stores, ships, transports distribute or otherwise deals in food products, animal or mineral waters, milk feeds, feeds for livestock or poultry, clothing, headwear, yarn or cloth of cotton, linen, wool, silk, artificial silk or rayon, wool or cotton blankets, fur goods, hosiery, footwear, or boot and shoe findings.

Only group exempt from the far-reaching plan are those who serve as the fountain head for the nation's eating and clothing needs—the producers themselves. A farmer may sell his own eggs or butter or vegetables without a licence and a sheep rancher may sell his wool.

(While an individual farmer, gardener, livestock or poultry producer, or fisherman is not required to secure a licence unless he buys for resale, all co-operative buying, selling, or marketing organizations and hawkers or drovers, who on their own account, buy for resale the produce of any primary producer, must obtain a Wartime Prices and Trade Board licence.

"These licensing requirements are not designed to curtail business operations," pointed out C. R. Morphy, director of licensing. "By having every person who in any way handles the commodities named in the order under the licence, the board will have the machinery with which to make speedy checks on available stocks and to police more effectively any price fixing order which may be instituted."

Individual persons storing small quantities of the commodities named in the licensing order strictly for their own use, are not required to obtain a licence. If these stored goods, are however, being kept for resale, their owner must secure a licence.

LIST OF SOLDIERS ENLISTED FROM THIS DISTRICT

Several more names have been added to the list below this week. If you know of any men enlisted from this district who are not listed below let us know at once.

J. C. Wells, R.C.A.F.
G. M. Kaye, Calgary Highlanders
J. R. Craft, R.C.A.M.C.
